

KRM Background Check Options

I already have a background check from within the past 2 years. Send KRM the background check documents to: volunteer@krmllex.org

I live in Kentucky and need to get a new background check. Choose from the options below. Contact KRM once you have submitted your background check process or if you have any questions (email above).

Options for obtaining a new background check:

Sterling (Most Recommended)

<https://workforce.sterlingdirect.com/InvitationCodePage?InvitationCode=3EC71BE082F646-B7A0DE46>

Create an account to start a background check. Make sure to select the 'local' option rather than state or region so that you are not charged more than \$8.00.

AOC CourtNet

<http://courts.ky.gov/aoc/criminalrecordreports/Pages/default.aspx> or (502) 573-1682

AOC CourtNet is a way to check your criminal history (based on court records) for \$25.00. You can make this request online, by mail, or in person in Frankfort.

Kentucky State Police

<https://kentuckystatepolice.org/background-checks/> or (502) 227-8700

Kentucky State Police offer a Background Check (criminal history – any arrests) for \$20.00. Choose the “Name Based” and then “Employment” options. Submit by mail with a check and two stamped envelopes (one for KRM, one for you) or submit in person.

Federal Bureau of Investigation

<https://www.fbi.gov/services/cjis/identity-history-summary-checks> or (304) 625-5590

The FBI will do a Criminal History Summary for \$18.00, but you also have to submit a set of Fingerprints (which may need to be done by a law enforcement officer for an additional fee; check out the list at <http://www.myfbireport.com/locations/lawEnforcement/KY.php#L> and scroll down to see Louisville or Lexington locations). Or, you can try to do the fingerprints yourself; they have a guide on the FBI website.

I have been living somewhere other than Louisville or Lexington, Kentucky.

Please get a background check from your previous county/state police department. You can usually find the numbers online. Contact KRM if you have any trouble securing this background c
